[From the Lex., Observer and Reporter.] Letter from Thomas II. Clay,

The following communication from THOMAS H. CLAY, Esq., the delegate from this district to the recent National convention of the American party at Philadelphia, will be read with interest by the the National Council, and also in the opinions of those bodies as any other gentleman. His letter is so clear and comprehensive upon all points touched upon, as to leave nothing for explanation at our hands:

To the American Councils of the 8th Congressional district of Kentucky, Mansfield, Mar. 10th 1856.

It is but respectful and proper, that as your Delegate to the National Council held on the 18th ultimo at Philadelphia. I should give you some account of what occurred there.

I found a settled and fixed design among the delegates, from the East and Northwest to strike out the 12th section of the Platform, adopted at the meeting of the American Council at Philadelphia on the 5th of June 1855. The excitement growing out of the Kansas and Nebraska difficulties had contributed to

strengthen this determination. In view of this, there was a meeting of the Southern delegates called on the 18th, to confer together and agree upon such a course of action, as it was thought the interests of the South might demand. There were no resolutions passed at this meeting, and the conservative spirit manifested by a majority of our Southern friends, gave us hopes, that we might yet weather the storm, conjured up, for the destruction of the American party.

On the opening of the Council on Tuesday morning, it appeared there day and night preceding the appointment, and debate, were admitted; while many

Our readers will recollect that some time last summer or fall, immediaic after the last Kansas outbreak, we published a notice of a man signing himself J. S. We received a letter last week, from Cynthiana, Ky., from this individual, who states his signing himself as he did simply as a joke. We give an extract from his letter:

I would inform you that I am a Kentuckian, a Southerner, in all my feelings, and that Missouri has my sympathies so strong in her present struggle to beat back the waves of abolition fanaticism in Kansas, that if I were only out there would make a first rate "border ruffian." The Board of Trustees take pleasure in announcing to the friends and patrons of the Kentucky Feorale College and to the public generally, that after much labor and difficulty and delay, they have at length succeeded, in placing the Institution upon a basis which warrants them in recommending it to the confidence and patronage of the public. Having been destitute of a Principal during the greater part of the session just closing, the institution has not been in a condition entirely satisfactory to the Board of Tinstees; but the next session will commence on the 4th of February, 1856, under new ausgices.

The Board have succeeded in pracuring the services of Rev. D T STRWART, A. M., of Shelbyville, (and for five years past Princi al of the Shelbyville Female College, which has conducted with emioent ability and success,) well and favorably known throughout Kentucky and the West as a successful educator of young ladies who lu conjunction with the Trustees will in luture have the entire control and management of the Kentucky Female College, as the interest of Mr. J. W. Sewell in the institution has been terminated by transfer, with the consent of the Trustees.

With Mr Stewart as Principal and an able corps of tasistant Teachers, such as will at all times be employed in this institution, the Kentucky Female College will be second to no institution in the country, in the educational advantages which it will offer to the public.

CASH IN HAND ONLY,

At as small advances, than any river town could possibly sell for. Passed experience should prove most conclusively to every man, that the cash rystem, is the only true and practicable mode of dealing, it promotes and secares prosperity and happiness, where, on the other hand, the credit system will bring on distress poverty and desolation, olten depriving men of their most sacred and dearest treasure, their happy homes. By reflecting upon these striking and invincible facts, a thinking community, will surely awaken their dutes in abolishing the rainous and abonimable Credit system, and a lopt in its place, the more judicious, prudent and wholesome Cash system. I therefore call the attention of the community at large and solicit one and all who can and will purchase their goods for Cash, to give me a sall hefore stopping elsewhere, to look at my stock and pricesthereon, and whoever should leave my house discatisfyed, I shall relinquish all claims of their patronage. Since my endeavor is, to keep a full and well selected stock of goods and that of the best qualities always on hand. I flatter myself to receive a full share of custom, close and strict attention will always be paid to business, and shall wait upon patrons with the greatest of pleasure, and will surely make it to the Interest of every one to call.

Yours with great respect.
